Sustainable and Attractive Cities and Regions

Paul Chaffey, State secretary in the Ministry of Local Government and Modernisation

Nordregio Forum, Wednesday 29th of November 2017
Sustainability

- United approach
- Nordic solutions
- White paper on urban sustainability and rural strength
Attractive cities and competitive regions

- Long-term resilience and competitiveness of industry and trade
- Sustainable land use and transportation systems
- Particular efforts in rural areas
- Liveable communities with vibrant centres
Good governing

• Cross-sectoral governance and city deals
• Urban growth agreements
• Growth agreements
• Area-based strategies against increasing disparities
• Government Strategy for the High North
Attractive Nordic Towns and Regions

- Small and medium sized towns
- Bottom-up
- Indicators
- Joint Nordic strategy

- Parallell session later today
Competitive and inclusive green cities and regions

• Both cities and regions are adapting to an extensive shift towards a rougher climate and a green economy.

• Successful businesses are emerging
• Urban development through climate adaption
Urban and rural areas of all size and shapes have an important role to play for the future of our Nordic regions.
