

| What is happening in the Nordic regional landscape?  
Nordregio Forum 2018

28 November 2018    Sigmund Lubanski, Deputy Director General

# Growth in Denmark

## Key indicators – Growth conditions in Denmark and OECD

### Velstand, produktivitet og arbejdskraft

Velstand (BNP pr. indbygger, årets priser)

Produktivitetsniveau

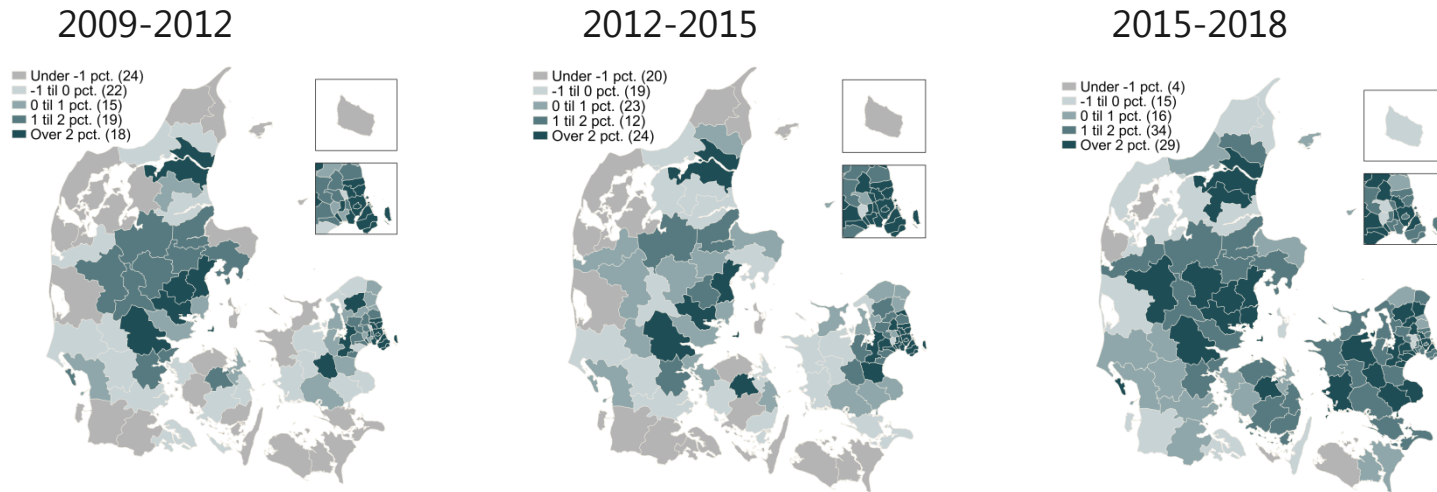

Produktivitetsvækst (2008-2017)

Arbejdsudbud pr. 15-64 årige, timer

Erhvervsinvesteringer, pct. af BVT

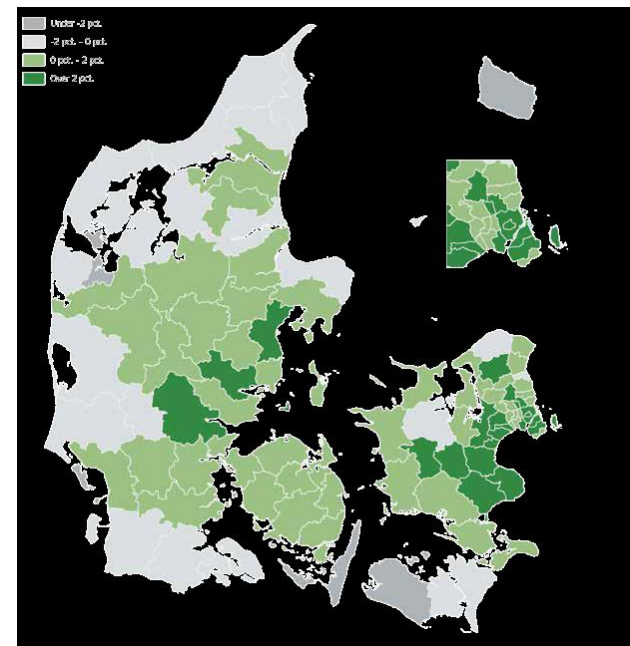

# Urbanization

Development in population numbers at municipality level.

# Growth and development throughout Denmark

- Since November 2015 the Danish Government has been working on implementing more than 120 initiatives from the government's ambition of "Growth and Development Throughout Denmark."
- The strategy has five focus points:
  - Agriculture
  - Manufacturing
  - Modernization of the planning act
  - Distribution of state workplaces
  - Better living conditions in the rural districts

Employment development 2013-2015

# Greater Copenhagen Plan 2030

- 1 How can we create room for 200.000 new citizens before 2030 and keep prices for housing at a reasonable level?
- 2 How can we develop smart and efficient transport in order to avoid overcrowded roads and public transport?
- 3 How can we make conditions for business, research and development among the best in Northern Europe?
- 4 How can we create an active, attractive and green capital, which is among the most attractive in Northern Europe
